

IQVIA™ TRANSPARENCY REPORTING

A versatile and user-friendly technology, meeting all global transparency requirements—making reporting seamless.

ADDRESSING GLOBAL TRANSPARENCY REQUIREMENTS AND USER NEEDS

With 20 years of transparency reporting best practices, the largest number of global implementations to date, and in-depth knowledge of leading transparency reporting solutions, IQVIA expands upon a foundation of success with its enhanced user-friendly technology.

IQVIA has combined industry feedback and customer insights, pulling the best features and capabilities into a configurable, end-to-end, SaaS solution that meets all global transparency requirements. These proven capabilities deliver a flexible, scalable, and user-friendly product with a streamlined process and a proven workflow—to collect, remediate and report global spend.

Collecting data from both automated and manual sources, IQVIA Transparency Reporting allows for spend capture monitoring and reporting, with in depth reporting tools and robust analytics. HCP/O spend is collected using multiple third-party interfaces and spreadsheet uploads.

IQVIA TRANSPARENCY REPORTING INTEGRATES AND CAPTURES ALL DATA SPEND, INCLUDING:

- Non-IQVIA captured spend
- Accounts payable (SAP/Oracle/JDE)
- Meeting logistics, and third party vendors and partners
- Clinical Research Organizations

A FULL CUSTOMER MASTER INTEGRATION

- Enterprise source of HCP/O profiles and unique identifiers
- Match/merge capabilities to avoid duplication

REPORTING, FEEDBACK, MONITORING & ALERTS

- Configurable rules engine, substantially reducing cost
- Solutions for all global transparency reporting requirements, at a national, state, and city level
 - » U.S. and French Sunshine, EFPIA, MedTech Europe, Dutch Registry, Portugal Infarmed, Brazil's Minas Gerais TOV, Colombia's Recapitulation of Sponsorship Report, Chicago Pharma Rep Disclosure, etc.
- Automatic updates to required reports when requirements change
- All spend is consolidated to unique HCP/O profiles
- Compliance reports validate and submit for disclosure
- Ad hoc, user generated capabilities examine aggregate spend data for additional reporting purposes
- Data analytics to assess data quality and completeness, enhance compliance operations, and provide business insights

Keeping up with consistently changing global transparency legislations, regulations and codes is a major challenge for life sciences companies of all size. IQVIA's Transparency Reporting makes transparency reporting seamless with a user-friendly, intuitive reporting process, and best-in-class SaaS technology.

NEW FEATURES IMPROVE THE USER EXPERIENCE

Pre-defined Dashboards and Snapshots of HCP/O Spend

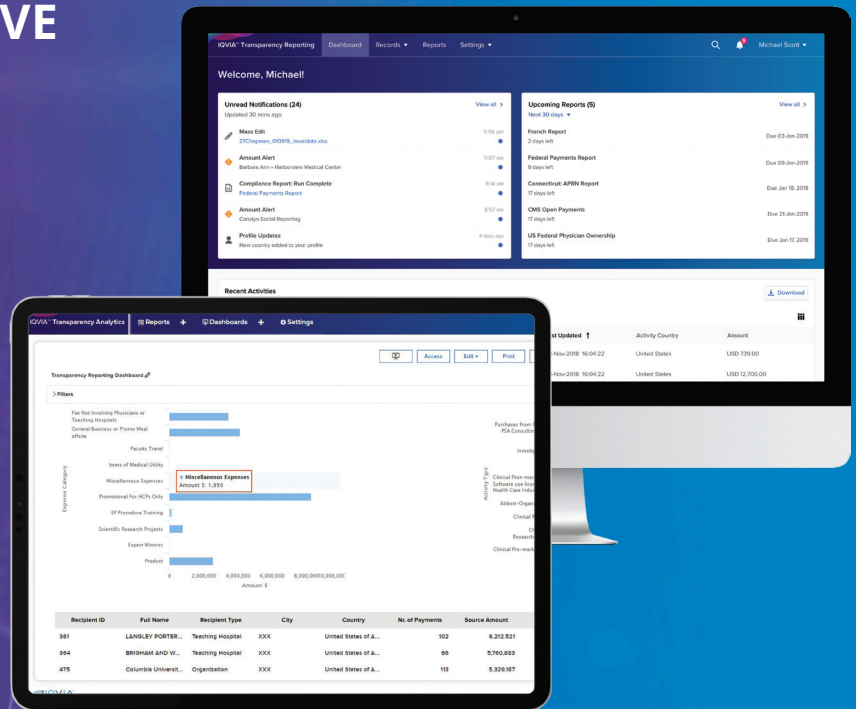

Access key spend information quickly and seamlessly, with built-in dashboards and snapshots of spend.

Advanced, Customizable and Interactive UI

IQVIA leverages its industry-leading user interface to deliver intuitive activity review and user updates, enabling the user to hide optional fields to simplify the interface.

Analytics

Analyze your spend data to drive better, faster decisions. With actionable, at-a-glance insights, users can improve transparency

reporting accuracy, mitigate compliance risk, and drive business value through data already collected for transparency reporting. Conveniently adapt dashboards and reports to answer the questions that are most meaningful to your business.

INSIGHTFUL GUIDANCE

With more than 20 years' experience, our compliance consultants tailor our services to meet business demands. We ensure your team is policy compliant, and up-to-date on all global regulations, creating and implementing an efficient and effective, end-to-end transparency program. Our experts:

- Review and assess existing policies and SOPs
- Conduct interviews to gain a complete understanding of processes and spend
- Compare captured spend to industry benchmarks and requirements
- Identify gaps in your processes and systems
- Prepare actionable roadmaps of findings, outlining short-, mid- and long-term solutions and implementations

TRANSPARENCY REPORTING OUTSOURCING

From registration and data collection, to report generation and final submission, IQVIA experts support your team or fully manage your transparency process. We deliver industry expertise, attention-to-detail, accuracy and efficiency—globally.
