

# OneKey: Innovative Provider Reference Solutions To Revolutionize Your Business

To best support your business, you need more than comprehensive coverage of physicians, organizations, and their affiliations. So, to help accelerate your business transformation IQVIA offers OneKey. OneKey includes the healthcare industry’s most complete provider reference database and enhanced capabilities for you to connect the data to any application and end-user in

your organization. The OneKey solution incorporates integrated data services enabling you to place high-quality provider reference data where it is needed, in real time. OneKey also offers unique linkage to IQVIA’s prescription, sales, and claims data, enabling you to quickly understand provider value and potential.

**WITH ONEKEY HEALTHCARE DATA ISN'T JUST LINKED, IT'S CONNECTED**

**CONSTANTLY ENRICHED AND ADAPTABLE TO ANY COMMERCIAL TASK, ONEKEY HELPS YOU:**

✓ **Know who is driving treatment paths and decisions** with current information on official structures, positions and roles

✓ **See connections** and understand how professionals and organizations are affiliated with one another

✓ **Optimize integration** with other business applications via OneKey’s APIs – accessible anytime, anywhere

✓ **Be precise in your targeting and segmentation** with 200+ attributes and harmonized views of HCPs and HCOs

✓ **Stay compliant** with local, regional and global requirements

Trust OneKey for the resources you need to take action and accelerate your commercial success. To learn more, contact your IQVIA representative.
