IQVIA

OneKey Central Prescriber

Access to over 2.6 million active prescribers and their status

Satisfy everyday business questions about prescribers

Maintaining accurate prescriber files is essential for busy pharmacies that are filling hundreds of prescriptions per day. OneKey Central Prescriber is a customized solution that integrates well with pharmacy management software systems to allow pharmacists to verify prescribers and confidently attach them to prescriptions with fewer keystrokes and greater accuracy.

WHY PHARMACIES CHOOSE CENTRAL PRESCRIBER

- Syndicated file delivery or API, updated daily

- Discover if a prescriber is sanctioned

- Access to 2.6+ million active prescribers

- View controlled substance registrations where applicable

- DEA records updated daily

- State license number updated daily

- Other sources updated as frequently as monthly

- Processes up to 5,000 transactions per hour

Satisfy everyday prescriber business questions

Improve your prescriber data quality and accuracy
